

## **Beleave Receives Unanimous Approval from Hamilton Planning Committee**

**Toronto, Ontario**— May 15, 2019 – Beleave Inc. (CSE: BE) (OTCQX: BLEVF) ("**Beleave**" or the "**Company**") is pleased to provide an update on its meeting with the Hamilton Planning Committee on May 14, 2019.

The committee unanimously approved Beleave's request to rezone their facility in Hamilton, Ontario and will reconvene later this month, through a city council meeting the week of May 20, 2019, to finalize the approval for expansion.

Beleave's Hamilton facility continues to provide high-efficiency extraction, R&D, product development and cultivation of cannabis and cannabis derived products throughout this approval process. The facility's significant expansion, if approved City Council, will provide the ability to expand its current production capacity.

The Hamilton facility houses growing space for Beleave's line of cannabis products, and continues to be its main hub for extraction, packaging, and distribution. The proposed expansion will allow the Company to greatly increase the efficiency and productivity of its growing and distribution strategy.

### **ABOUT BELEAVE INC.**

Beleave is an ISO certified, Canadian cannabis company headquartered in the Greater Toronto Area that cultivates high-quality cannabis flower, oil and extracts for medical and recreational markets. Beleave is fully-licensed to cultivate and sell medical and recreational cannabis and is leading the way through research partnerships with universities to develop pharma-grade extracts and derivatives.

Beleave is developing new product lines, including cannabis-infused powder products for 2019 as the recreational market is expected to allow for food and beverage-based cannabis products. Beleave has developed a network of medical cannabis clinics in Ontario and Quebec under the Medi-Green banner. Through its majority ownership of Procannmed S.A.S., Beleave is fully licensed to cultivate, produce, and extract medical cannabis in Colombia positioning it to capitalize on exports and the expanding Latin American market. The Company has partnered with Canymed GmbH to supply the German market with medical cannabis.
